The job on the garage was beautifully done with caulking on wood siding and hundreds of set nail holes filled. The crew scraped and repainted wood trim on house as well all work was done expertly.

Colorblast did a great job with the painting of the interior of our home. They were professional and courteous. We appreciated the effort they put in to always making sure our home was functional for us to use after they left for the day. I would recommend Colorblast to friends and family.

Thanks Nathan and Amanda we love the look of our home!

As Nathan dug into the dry rot, he kept us informed as to the extent of the problem and the possible solutions, so that we could come up with what was best for our situation. He went to a lot of trouble to get the right siding to replace the old, which we greatly appreciated.

The painters arrived on time, did a great job painting and took care to patch some cracks in the walls that had come with the house settling over time. They cleaned everything up nicely and pushed the furniture back into place before they left.

We had two bedrooms that had textured walls that we wanted to be made flat and repainted. We received a number of quotes and there's was by far the cheapest, but we had heard good things about Colorblast. The project went smoothly and the team working on the project did a great job. They kept the area clean and the results look great. We will be using them for our future painting projects.

Nathan and his team at Colorblast painted our home this month (May 2016). The project took a bit over a week (mostly due to weather). One of the things I truly appreciated about Colorblast is that they were always communicating with me to ensure I knew the status of the work. Our home had not been painted in around 10 years and the house needed quite a bit of work, including replacing dry rot. Nathan and his team were great – not only did they paint the exterior of the house, but also replaced the dry rot in our exterior stairs and added siding where it was missing on one side of the house. In addition to painting the exterior of the house, Nathan’s team painted our exterior security doors and an adjacent gate – both of which made the house look even better. Working with Colorblast was also easy. Since I had to head out to work pretty early in the morning, I knew I could always email Nathan and his team to ask questions or provide feedback. Colorblast really made this whole home improvement project easy and pain free. I highly recommend Colorblast Painting.

I signed a contract first part of December for them to start in January – rain and completing other jobs delayed the start time. I had a deadline of March 1st – relatives coming for my daughters wedding. Even though they started late they completed the job on time. Nathan and the crew were courteous.

Colorblast Painting was among the six exterior painting companies that provided estimates for painting our house. Nathan Martinez, the owner of the company, examined the house, explained our options, and pointed out items that needed attention. He was very knowledgeable and left me with the impression that Colorblast Painting was an honest company that would do a good and thorough job. Although they did not get the job, I don’t think you could go wrong with Colorblast Painting.

“Nathan is an honest individual who provides quality work.

He tells you exactly what he will do and then follows-up and gets the job done. He was not the lowest bidder or the highest bidder on our project.”

“I hired Nathan’s team to refinish my bathroom/kitchen cabinets.

This was a difficult job since parts of the cabinets looked like brand new and parts looked badly. I wanted a method that cabinets would get a uniform look without refinishing parts that frankly needed little intervention. Nathan suggested a method and we signed a contract but when they started working on my bathrooms I realized this will be fine for bathrooms but not good enough for the kitchen. Ultimately Nathan showed a lot of flexibility and I got exactly what I wanted. Great team.”

“Nathan Martinez and his crew did a great job at our condominium project.

It was a great deal of work to paint our 2-3 story community and they did it very well and efficiently. We actually had someone come in off of the street to comment on the paint job and how it so greatly enhanced the property. We certainly recommend ColorBlast and will definitely use their services in the future.”

Great customer service!

Nathan was very responsive to any concerns I raised and got back to me promptly. We had extensive dry rot on our home. They did an excellent job repairing the dry rot and prepping for the exterior paint. They came on Saturday Sunday and the Holiday to make sure everything was finished and all punch list items were resolved. We would definately work with ColorBlast again. The only negative was the minimal. Daily cleanup.

“ColorBlast did a good job in painting the exterior of my house.

The crew did a good job keeping the debris to a minimal and finishing the project on schedule as promised. Cleanup was very good. After the job and payment made, Nathan and his crew came back to take care of some minor issues without any difficulties. I think ColorBlast provides good value and I would recommend them to any friend without hesitation.”
